

North Shore Environmental Consultants Inc. is a progressive environmental company that specializes in providing environmental management and consulting services. Since our inception in 2002, North Shore has offered cost efficient and effective solutions to the complex environmental challenges faced by today's industries. We offer our employees exceptional career development opportunities and an excellent team-oriented working environment.

North Shore is currently seeking **Summer Students and Seasonal Staff** to assist our **Air Emissions & Regulatory Team**. Positions are to be based out of Calgary and Grande Prairie and will focus on fugitive emissions assessments under Directive 060 and engine testing under the Multi-Sector Air Pollutants Regulation (MSAPR). Strong candidates based out of Sherwood Park will be considered.

Key Responsibilities:

- Complete fugitive emissions surveys using gas-imaging cameras
- Quantify leaks using Hi Flow Sampler, Gas Detectors, US EPA Method 21, or other
- Tag leaking components using North Shore leak tags, record and document leaks using tablets
- Assist with fugitive emissions reporting under Directive 060
- Complete equipment inventories of pneumatic controllers, vents, pumps and gas fired equipment
- Complete compressor vent testing under Directive 060
- Conduct NOx emissions check and performance tests under MSAPR
- Provide assistance to senior staff on a variety of projects
- Ensure that project requirements are met in a timely and effective manner

Qualifications:

- Preference for candidates currently enrolled in a Technical Diploma or University Degree Program in environmental science or related discipline.
- Understanding of, or experience with, upstream and midstream oil and gas operations.
- Experience with handheld instrumentation / analyzers or infrared cameras an asset.
- Willingness to travel and be in the field for extended periods of time
- Excellent communication, writing, and problem solving skills
- Valid driver's licence
- Good physical health and ability to work outdoors in varying conditions
- Highly organized and have the ability to prioritize multiple tasks
- Preference will be given to candidates that are pre-approved as a co-op student under EcoCanada or have previous work experience in fugitive emissions testing.

North Shore Environmental Consultants Inc. supports a shared commitment to a Representative Workforce that is respectful and reflective of all staff and clients. North Shore strives to build diversity among our staff to increase our ability to provide high quality service to our diverse client base.

**NORTH SHORE**  
Environmental Consultants
