

North Shore Environmental Consultants Inc. is a progressive environmental company that specializes in providing environmental management and consulting services. Since our inception in 2002, North Shore has offered cost efficient and effective solutions to the complex environmental challenges faced by today's industries. We offer our employees exceptional career development opportunities and an excellent team-oriented working environment.

North Shore is currently seeking an **Intermediate Corporate Consultant** for our **Corporate Consulting Team**, based out of **Calgary, Alberta**.

Key Responsibilities:

- Assist with the development and execution of site-specific liability assessments (SSLAs)
- Provide support for data manipulation and analysis related to acquisitions and divestitures
- Coordinate and conduct due diligence desktop liability assessments for standalone wellsites/facilities
- Coordinate and conduct due diligence desktop liability assessments for potential and ongoing large-scale acquisitions (e.g. 100-500+ wells)
- Perform requirements elicitation and gap analysis alongside clients to ensure their data management software needs are met/their software and reports are configured properly (i.e. SiteView implementation, support, and training)
- Complete QA/QC related work on large-scale datasets associated with oil/gas assets
- Prepare cost estimates for proposed work and ensure project budgets are on maintained properly.
- Provide assistance to senior staff in the office, as required

Qualifications:

- Technical Diploma or University Degree in environmental science or related discipline
- Knowledge and experience related to AER D001, D006, D011, D024, D075
- Experience with SiteView (with preference given to candidates with AdminView and/or Database Security and Alert Manager experience)
- Familiarity with acquisition and divestiture environmental data and processes
- 3-5 years of related oil and gas experience
- Advanced experience with Microsoft Office (Excel) and comfortable using and learning new programs.
- Extremely high attention to detail.
- Willingness to work within a team environment and also can work well independently
- Highly organized and have the ability to prioritize multiple tasks
- Excellent communication, writing, and problem solving skills

North Shore Environmental Consultants Inc. supports a shared commitment to a Representative Workforce that is respectful and reflective of all staff and clients. North Shore strives to build diversity among our staff to increase our ability to provide high quality service to our diverse client base.
