

North Shore Environmental Consultants Inc. is a progressive environmental company that specializes in providing environmental management and consulting services. Since our inception in 2002, North Shore has offered cost efficient and effective solutions to the complex environmental challenges faced by today's industries. We offer our employees exceptional career development opportunities and an excellent team-oriented working environment.

North Shore is currently seeking an **Intermediate Emissions Specialist** for our **Air, Emissions & Regulatory Team**, based out of **Calgary, Alberta**.

Key Responsibilities:

- Collect data and quantify emissions for reporting to the National Pollutant Release Inventory (NPRI)
- Collect data and quantify greenhouse gas (GHG) emissions for reporting to the BC Greenhouse Gas Emission Reporting Regulation, Alberta Specified Gas Emitters and Reporting Regulations/Carbon Competitiveness Incentive Regulation, Environment Canada GHG Reporting Program
- Calculate benzene emissions from glycol dehydrators using GRI-GLYCalc, develop Dehydrator Engineering and Operating Sheet (DEOS) and prepare the annual dehydrator inventory as per Alberta Energy Regulator Directive 039.
- Preparation of Monthly Air Reports for EPEA Approval facilities
- Preparation and review of Air Monitoring Directive and CEMS Code Quality Assurance Plans
- Preparation and review of technical reports
- Supervision of junior staff

Qualifications:

- Environmental Science or Engineering Degree (or relevant diploma/degree from a credible institution) or equivalent work experience
- Excellent communication, writing, organizational, computer and problem solving skills
- Strong Microsoft Office skills
- Solid understanding of upstream, midstream and oil sands operations
- Minimum of three years of experience in NPRI quantification and reporting
- Prior experience with quantification and reporting under the BC GHG reporting and/or Alberta SGER / CCIR reporting
- Preference given to candidates who have experience with energy efficiency projects or greenhouse gas offset projects
- Willingness to learn and be cross trained
- Valid driver's license
- Self-motivated and have a willingness to succeed within a team environment

North Shore Environmental Consultants Inc. supports a shared commitment to a Representative Workforce that is respectful and reflective of all staff and clients. North Shore strives to build diversity among our staff to increase our ability to provide high quality service to our diverse client base.

Please submit your resume via email to careers@northshoreenv.com. We thank all applicants for their interest; however, only those considered for an interview will be contacted. For more information about North Shore, please visit our website at www.northshoreenv.com.

This position will remain open until a suitable candidate is found.
